

PROJECT ASSESSMENT CRITERIA AND METHODOLOGY

Generic document for all business programmes operated by Innovation Norway within EEA & NORWAY GRANTS 2014-2021

ASSESSMENT METHODOLOGY

This document presents information about the assessment process that will be conducted by Innovation Norway as the Fund Operator. Project applications will be assessed by the Fund Operator who bears the full responsibility for the handling of the applications and the project selection. The assessment will be based on a combination of appraisal methods as presented in section 2 of these Project Assessment Criteria.

ADMINISTRATIVE AND ELIGIBILITY CHECK

The Fund Operator will check the fulfilment of administrative and eligibility criteria contained in the relevant Call for Proposals. In the case of applications not complying with the administrative and eligibility criteria, Innovation Norway may contact the Applicant to clarify the information provided or request the provision of additional information. Applicants will be given 10 working days to submit the information requested. Applications submitted in a language other than English will be automatically rejected.

All applications meeting the administrative criteria and the eligibility criteria, will be subject to a further assessment conducted by the Fund Operator. A “no” assessment corresponding to any of the criteria will disqualify the project application from further assessment and will lead to the rejection of the application. A letter to the Applicant will indicate the main reason for rejection. The rejection decision will be communicated to the Applicant via e-mail, using the e-mail address indicated in the Application Form under the section “Contact person”.

TECHNICAL AND FINANCIAL ASSESSMENT

Applications which fulfil the administrative and eligibility criteria will be further assessed by two experts from the Fund Operator. The experts shall evaluate the projects against the selection criteria described in the relevant Call for Proposals. If necessary, the Fund Operator may use external expertise on a case-by-case basis.

The financial and technical assessment criteria presented below will be scored on a scale from 0 (zero) to 6 (six) points, where 0 is the lowest (a criterion is not fulfilled at all, but the project could still be considered for funding) and 6 is the highest score. The scoring will constitute the basis for an assessment profile and will be used to rank the projects. Each of the assessment criteria may be a critical success factor, i.e. a weak score within one criterion can jeopardize the success of the whole project application and lead to the rejection of the application without further in-depth assessment of other criteria.

The result of the experts' assessment shall be a ranked list that forms the basis for the discussion of the Fund Operator's Selection Committee. The Selection Committee will make the decision to reject or approve the applications. Prior to the Fund Operator's final decision, the Financial Mechanism Office (FMO), the Programme Partner(s) and the National Focal Point will be provided with the ranked list and reasonable time to give their input to the Fund Operator.

In case of decision to approve the application, the Applicant will first be informed about the decision via e-mail. Thereafter, the Applicant will receive a Project Contract containing the Grant Offer Letter, contractual conditions, approved project budget, maximum grant rate and amount, expected outcomes from the implemented project, Project Implementation Plan and Disbursement Plan. Specific issues may be subject to further formalisation in the Special Conditions of the Grant Offer Letter.

DOCUMENTARY EVIDENCE

For each criterion that will be assessed, the Fund Operator will check information included in the sections from the electronic Application Form and in the mandatory documentation attached to the Application Form. Please note that specific attachments like "Business Plan" or "Project Document" will be mandatory for submission by the Applicant if they are listed in the Calls for Proposals. During the assessment process, the Fund Operator reserves the right to request clarifications and further documentary evidence as may be necessary.
